## INGESTORE SERVER 3G IS A TURNKEY SYSTEM ALLOWING EASY 3G/HD/SD UNCOMPRESSED OR COMPRESSED FILE CAPTURE FROM MULTIPLE SDI SOURCES

**UP TO 4 SOURCES**

**SIMULTANEOUS RECORDING AND NLE OPERATION**

Bluefish444's IngeSTore Server is capable of multi-channel ingest on Windows, enabling capture of up to 4 independent 3G/HD/SD-SDI sources simultaneously. IngeSTore can be used seamlessly in combination with popular NLE software such as Avid Media Composer and Adobe Premiere Pro CC, providing a simultaneous capture and output solution. IngeSTore Server is available as either networked or internal storage models.

## INGESTORE SERVER 3G CAN BE UPGRADED WITH THE FOLLOWING CODEC OPTIONS:
